

The COLLIDER

The Venture Builder to create highly innovative technology startups

The Collider is the pioneering programme promoted by Mobile World Capital Barcelona that addresses the challenge of connecting the results of scientific research with entrepreneurial initiative, in order to create highly innovative technological startups.

If you want to create a highly disruptive startup applying your knowledge and experience, The Collider is your opportunity to make it happen with all the necessary resources: methodology, equipment, experience and investment ... **apply now**

WE LOOK FOR scientific profiles linked to research centers or to a university research group, with relevant knowledge in the areas of technologies (AI, IoT, VR / AR, Blockchain ...)

WE LOOK FOR entrepreneurial profiles with demonstrable experience in the creation of startups, or with great capacity to lead and develop a business.

Discover new ways to startup!

Applies until October 29th and participates in The Collider.

The Collider programme follows a unique methodology during 10 months to create highly innovative technological startups. We select the best talent from both scientific and business worlds to create teams of founding entrepreneurs who will design and create future startups.

During the The Collider programme, startups will access to:

- Up to € 150K seed capital
- Workspace at the technological hub Pier01 Palau de Mar, Barcelona
- Broad community of experts, mentors and corporations
- Lead to second funding rounds
- Exhibition at Mobile World Congress and 4YFN

For more information do not hesitate to contact us.

Call for applications is closing on October, 29th.
