

Dear all,

Please be informed that a presentation of the International Space University (ISU) will take place on Monday, 17 March 2014 at 11.00 in Room 001 at EETAC in Castelldefels.

The International Space University (ISU) offers unique international, interdisciplinary and intercultural programs that cover all aspects of space, including space science, space engineering, space business, space law, etc. The main programs offered are a Space Studies Program (lasting two months, and organized every year in a different country) and a Master of Space Studies (lasting one year and taking place in Strasbourg, France).

The one-hour presentation will include the following information:

- Generalities about ISU and its programs, admissions requirements and process, scholarships offered, job opportunities after attending ISU (Nassim Bovet, 20 mn)
- Movie about ISU (10mn)
- Alumni experience at the ISU SSP (20 mn)
- Questions & Answers session (10 mn)

Before attending this presentation, it is possible to get preliminary information about ISU at www.isunet.edu or by sending an email at admissions@isunet.edu

Thank you and best regards,

Nassim Bovet

Head of Admissions
International Space University
