MASTEAM
MASTER IN APPLIED TELECOMMUNICATIONS
AND ENGINEERING MANAGEMENT
Scope and Objectives

- Telecommunication has evolved from audio and video communication for personal information exchange and entertainment to pervasive data communication in the Mobility and Internet-of-Things era.
- This master degree is intended for those willing to acquire the skills that will enable them to conceive, design and implement cutting-edge engineering solutions based on the latest telecommunication and Internet technologies in order to improve people’s welfare in a sustainable economy.
Approach/Strategy

- Courses cover a broad spectrum of topics including sensors to obtain data, wireless and optical technologies for data communication, advanced data-processing methods, algorithms for design optimization and the strategies to translate ideas into new devices and services.

- Yet other courses delve into cutting-edge applications such as the Internet of Things, smart objects, Body Area Networks, specialised tools such as image processing, or security, and aspects such as management and service engineering.

- Finally, students will consolidate their knowledge by applying it to a challenging problem during the master thesis.

- Teaching resources largely involve student participation in lectures, laboratory work and hands-on projects.

Enrolment & Qualification

- Enrolment takes place on February and September
  - First enrolment (today!) is face-to-face, presentational, but the next ones can be done remotely via e-secretaria.
- You must enrol the 1x1 and 1x2 (where x = A or B) subjects – one enrolment per semester
- Marks are numerical, scale 0-10
  - You need at least a 5 to pass the course
  - In case you obtain a 9 or more, you can be eligible for “with honors” distinction (“Matrícula d’Honor”, MH).
    - Limited to the best 5% students in each course
    - But it is up to the professors to decide if any student deserves it
    - Discount in the next enrolment
Academic Performance

- If you do not pass 15 credits in your first year (2 semesters), you cannot continue your studies
  - You can request a one-time exception to the rule – but must be justified

- Alpha factor = credits passed / credits enrolled
  - If alpha < 0.5, your next enrolment will be limited to 24 credits
  - If alpha < 0.3 for 3 times, you cannot continue your studies
    - You can request a one-time exception to the rule – but must be justified

MASTEAM talks - Building Quantum Technologies - Carlos Abellán

Wednesday 9 November, 17:30h, C4-001 (Sala de Actos / Main Hall), Campus Castelldefels UPC.

The Master's degree in Applied Telecommunications and Engineering Management (MASTEAM) organizes a weekly series of activities (talks, technical visits, discussion pannels) that complement the academic activities with real-world experiences from companies, research centres and institutions in the main topics of the master: Internet of Things, Smart Cities, 5G mobile communications, Software-Defined Networking (SDN) and Radio (SDR), cloud computing, among others.

This week's activity will be a talk from Mr Carlos Abellán (ICFO, Institute of Photonic Sciences).

**Title:** Building Quantum Technologies

**Abstract:** In this talk we will review the state of quantum technologies at the industry level as well as current challenges and efforts towards creating scalable products. Following a pragmatic and intuitive approach, we will also discuss about those quantum effects that motivates the development of technologies. Finally, I will present a new worldwide scientific collaboration that will perform, on November 30th, several fundamental quantum physics experiments using the contribution of thousands of people like us.

**Bio:** BSc in Telecom engineering and MSc in Photonics Science. Experienced on bringing state-of-the-art technology from concept to customer validation. PhD student at ICFO, the Institute of Photonic Sciences, and trained at the Haas School of Business (UC Berkeley).

Master Thesis

- Research / development work, to be defended.
  - Advised / directed by a EETAC professor
  - Written report + public presentation, evaluation committee
  - Outcome: research paper (journal, conference) + divulgative poster/blog entry

- Can be done at:
  - EETAC research groups
  - Research institutes (only those with a UPC agreement)
  - Companies (only those with a UPC agreement)

  External theses require an academic tutor-supervisor from EETAC

- Thesis proposals are published in the EETAC website
  [https://mitra.upc.es/SIA/PFC_PUBLICA.LLISTAT_OFERTS?w_codi_programa=308](https://mitra.upc.es/SIA/PFC_PUBLICA.LLISTAT_OFERTS?w_codi_programa=308)

- Collection of MASTEAM theses from previous years
  [http://upcommons.upc.edu/handle/2099.1/4374](http://upcommons.upc.edu/handle/2099.1/4374)
Internships

- You can do internships at companies (provided they have an agreement with EETAC), but you cannot obtain MASTREAM credits for that.

- Maximum of 600h during the whole program.

- When?
  - After having passed at least 15 ECTS credits.
  - My advice: wait until the second semester or after 30 ECTS.

- Your academic tutor must review and approve the work plan, considering your workload and academic records.

- If you are older than 28 years, the School insurance does not cover the internship, and you should contract one. UPC has an agreement with CONFIDE.
Mobility and Double Degrees

- Master Thesis in more than 30 partner institutions in Europe
  

- Double Degree agreements
  
  - 1 year MASTEAM + 1 year abroad = 2 master degrees
  
  - Master in Telecommunications Engineering, Università dell’Aquila (UNIVAQ), Italy. More details here.

  - Cranfield University (UK):
    

  - Negotiations ongoing with IST Lisbon and KTH Stockholm
Access to PhD programs

- To be admitted in a PhD program in the European Higher Education Area (EHEA), you must have:
  - An official Bachelor Degree and at least an official Master Degree
  - At least 300 ECTS credits between Bachelor and Master

- MASTEAM is an official Master degree recognized by Spanish and European authorities.

- Therefore, combined with a 240 ECTS Bachelor Degree (equivalent to 4 years full-time), it allows you to access an official PhD program.
  - Foreign students must legalize/convalidate their Bachelor Degrees in the Spanish Ministry of Education.

Transport tips

● Fares & tickets
  ■ Castelldefels belongs to Zone 1 (cheapest fare)
  ■ Buy integrated tickets (1h15 mins changing between train, metro, bus, and tram). Avoid single tickets – they are much more expensive.
  ■ If you do at least 2 trips/day (14 per week) the monthly and 3-months passes (T-mes and T-trimestre, unlimited trips for 30 or 90 days) are the best option.
  ■ Train delays of more than 15 minutes entitle you to obtain a refund.
